

CLEAN ENERGY TRANSITION			
NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
Tyler Gray	LSU Industrial Assessment Center	chaowang@lsu.edu	prepare federal funding, private sector coordination, progress tracking
	Placid/ LMOGA	tyler.gray@placidrefining.com	consumer driven market response
Katherine King	Louisiana Energy Users Group	katherine.king@keanmiller.com	Actions 1.1, 1.2, 1.3, 1.6, 1.7 Interested in participating in all aspects of implementation which will primarily be at LPSC and subject to concerns raised in previous comments line limitations on clean energy
Richard Green	Shell	r.c.green@shell.com	Interested in access to carbon free electrons and mechanisms to increase buildout of renewable power
Marin Stephens	RPC	mstephens@norpc.org	supporting H2 the Future federal applications, supporting fuel corridor planning
Nathan McBride	LMOGA	nathan.mcbride@lmoga.com	Actively discuss Energy transition and policy w/ members
Greg Bowser	LA Chemical Asspc.	greg@lca.org	
Nathan Lott	Preservation Resource Center	nlott@prcno.org	Policy, Outreach
Niki Pace	Louisiana Sea Grant/ LSU	nlpace@gmail.com	Sea Grant increasing interest in offshore wind and BOEM @national level. Locally prelim legal research into implementation of offshore wind in LA and some Carbon Market work.
Stephanie Ferry	Raymond James	Stephanie.ferry@raymondjames.com	Interest in assisting with financing alternatives for companies / locale government incentives
Tokesha Collins Wright	LCA	tokesha@lca.org	strategy
Tim Hardy	Task Force Member		former DEQ Asst Sec. Environmental Lawyer
Ashok T. Patel	Trinity Consultants	apatel@trinityconsultants.com	
Jason Lanclos	LDNR, Director State Energy Office	Jason.Lanclos@la.gov	IJJA Energy Lead
Active progress towards action implementation			
Frances Roberts-Gregg	Foundation For Louisiana	fgroberts@foundationforlouisiana.org	alternatives to capture and carbon storage
Katherine King	Louisiana Energy Users Group	katherine.king@keanmiller.com	Participation in all aspects of actions 1.4,1.5, and 2.4 currently involved in ongoing proceedings at LPSC that are considering such issues.
Logan Burke	Alliance for Affordable Energy	logan@all4energy.org	intervener in dockets at LPSC (like IRPs); support legislation solar and storage; implementation of RCPS in New Orleans
Brent Newman	Audubon Delta	brent.newman@audubon.org	ongoing participation in coalitions for clean energy deployment in NOLA and statewide and national
Ann Vail	Louisiana Clean Fuels	ann@louisianacleanfuels.org	support infr. Dev. For transportation fueling through the FHWA corridors. LCF is working w/ DOTD to nominate hydrogen and EV corridors
Bill Robertson	LPSC	wgrobertson@gmail.com	shift to clean power grid, push distributed resources
Brad Lambert	Louisiana Economic Development	brad.lambert@la.gov	Working with private sector companies evaluating energy transition projects
Brian Bond	AEP SWEPCO	tbbond@aep.com	Environmental Affairs, Clean Energy Transition
Laura Beauchamp	Entergy Louisiana	lbeauch@entergy.com	leading efforts to meet growing energy needs w/ renewable and clean resources
Fabiola Campoblanco	Worley	Fabiola.campoblanco@worley.com	Actively engaged with industry partners executing projects within these strategies
Jeff Schwartz	City of New Orleans	jeschwartz@nola.com	micro grids/ virtual power plants renewable portfolios and policy regulatory changes financing tools for grid (local and fed)
C. Colten	LSU	ccolten@lsu.edu	Basic research, adaptive transitions
Anthony Bodin	GNO Inc.	abodin@gnoinc.org	GNOwind Alliance is a net worth of public and private members advancing OSW in LA
Resources available to facilitate active progress			
Bliss Higgins	Assistant Secretary OES, LDEQ		Rule and policy development, stakeholder engagement, implementation
Alexandria St. Pe	RWE Renewables	alexandria.st.pe@rwe.com	Investigating opportunities to develop, construct, operate, offshore wind derived green hydrogen products
Liz Russell	EDF	lwrussell@edf.org	advocate, collaborate, influence with LPSC to change policy to improve outcomes
Terry Chambers	UL Lafayette	terrence.chambers@louisiana.edu	renewable energy, research, education, workforce development, economic development, multiple grants, grants writing
Mark Zappi	UL Lafayette	Zappi@louisiana.edu	biofuels, share R&D data
Bill Robertson	LPSC	wgrobertson@gmail.com	meeting w/ LPSC and Elec utilities
Tim Hardy	Task Force Member		Available for Legal Research

CLEAN ENERGY TRANSITION			
NAME	ORGANIZATION	CONTACT	ROLE
Fabiola Campoblanco	Worley	Fabiola.campoblanco@worley.com	Support industry Partners in providing subject matter expertise renewables, offshore, etc.
Tony Laska	EES LLC	laska.ees@gmail.com	Coordinate access to no-cost USDOE- funded engineering and policy technical assistance from Houston Advanced Research Center. Access cost/benefit am design for community/ institutional micro grids

INDUSTRIAL DECARBONIZATION

NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
Tim Hardy	Task Force Member		Former LDEQ official/ Environmental Lawyer
Garvin Pittman	Fenstermaker and CRCL	garvin@fenstermaker.com	15 years as a chemical engineer in multiple types of facilities
Jennifer Mouton	Fenstermaker	jennifer@fenstermaker.com	Invested in working towards emission reductions and flood risk reduction
Ashok T. Patel	Trinity Consultants	apatel@trintiyconsultants.com	Interested in reducing industrial GHG emissions
Niki Pace	LSU / Louisiana Sea Grant	nlpace@lsu.edu	research interest in legal right issues around carbon capture but no current project or funding
Eric Smith	Tulane Energy Institute	esmith11@tulane.edu	Associate Director
Active progress towards action implementation			
Tokesha Collins Wright	LCA	tokesha@lca.org	Actions 3.3, 4.1, 5.1, 5.3
Karl Weber	Atmos Energy	Karl.weber@atmosenergy.com	Developing carbon offsets (natural gas) for our industrial customers
Allen Guiher	Worley	allen.guiher@worley.com	Strategies 3-6: Actively involved with industry in this space
Ken Jackson		Ksj@carbon-zero.us	CEO
Richard Green	Shell	r.c.green@shell.com	Integration of Shell's learnings in Decarbonization Locally/Globally into LA specific work.
Eric Smith	Tulane Energy Institute	esmoth11@Tulane.edu	Associate Director
Tyler Gray	Placid	tyler.gray@placidrefining.com	efficient operation w/ consumer driven response
Chao Wang	LSU-Industrial Assessment Center	chaowang@lsu.edu	Provide no-cost technical support to improve effaces of industrial process and facilities
Jeff Schwartz	City of New Orleans	jeschwartz@nola.com	Supporting BBRC and IJIA Opportunities. Working with SRWB and energy on industrial projects
Nathan McBride	LMOGA	Nathan.mcbride@lmoga.com	We have an active committee to collaborate among industry partners. We also work to host events to provide networking opportunities to project developing and economic growth.
Margo Moss	L & M Environmental Response	Margo.Moss@lmenviro.com	Actions 3.1 & 3.2 Assist w/ CI + GHG Methodology and framework. Liaison with Small/medium industry. Fill gaps where needed.
Brad Lambert	Louisiana Economic Development	brad.lambert@la.gov	Engaging with private sector companies. Evaluating decarbonization efforts.
Anthony Bodin	GNO Inc.	abodin@gnoinc.org	Developed H2theFuture initiative to advance hub in LA
Greg Bowser	LA. Chemical Association	greg@lca.org	
Resources available to facilitate active progress			
Tokesha Collins Wright	LCA	tokesha@lca.org	Action 3.3
Fabiola Campoblanco	Worley	Fabiola.campoblanco@worley.com	Strategy 5: Support industry partners in providing subject matter expertise (renewables fuels, ccus, industrial hubs)
Jason Meyers	LDEQ	jason.meyers@la.gov	Action 3,4,5 Agency support role
Liz Russell	EDF	lwrussell@edf.org	provide technical assistance to get more resources for monitoring, inventory, and certification
Laura Beauchamp	Entergy Louisiana	lbeauch@entergy.com	available to discuss efforts and opportunities w/ electrification
Tony Laska	EES LLCs	laska.ees@gmail.com	I coordinate access to no-cost US DOE- funded engineering and policy technical assistance from Houston advanced research center. Assess feasibility and cost/benefit. Combine heat and power. Community/ Institutional micro grids
Alexandra St.Pe	RWE Renewables	alexandra.st.pe@rwe.com	Investigating opportunities to develop, construct, operate offshore wind derived green hydrogen production projects.
Eric Smith	Tulane Energy Institute	esmith11@tulane.edu	Associate Director
Michael Jackson	Bernhard Capital Partners	michael.jackson@bernhardcapotal.co	Business resource
Mark Gebbia	Williams	mark.gebbia@williams.com	Actively working on projects to track carbon intensity and apply low or no carbon H2 feedstocks

INDUSTRIAL DECARBONIZATION

NAME	ORGANIZATION	CONTACT	ROLE
Bliss Higgins	Assistant Secretary LDEQ		Regulation development stakeholder engagement /implementation
Tim Hardy			Legal Research available
Glen Lyons	Exxon Mobil		Actions 5.2, 5.3, 3.3
Mark Zappi	UL Lafayette	zappi@louisiana.edu	Partner with UL on projects; technology transfer; organize conferences; build new partnerships via existing ones

ACTIVELY MANAGED METHANE EMISSIONS			
NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
Jason Lanclos	LDNR	jason.lanclos@la.gov	Director state energy office, IJJA Energy lead
Ashok T. Patel	Trinity Consul	apatel@trinityconsultants.com	learn and implement
Eric Smith	Tulane Energy Institute	esmith11@tulane.edu	Associate Director
Joey Breaux	LDAF	joey_b@ldaf.state.la.us	program development and oversight
Active progress towards action implementation			
Karl Weber	Atmos Energy	karl.weber@atmosenergy.com	Atmos is replacing entire natural gas distribution systems to reduce methane
Nathan McBride	LMOGA	nathan.mcbride@lmoga.com	I sit on OSR commission and have been advocating for policy that results in orphan wells and future utility wells.
Eric Smith	Tulane Energy Institute	esmith11@tulane.edu	Associate Director
Allen Guiher	Worley	allen.guiher@worley.com	Strategies 7 and 8 actively involved with industry partners on projects in this space
Resources available to facilitate active progress			
Mark Zappi	UL	zappi@louisiana.edu	1) use our retro engineering skills 2)CH4 capture and conversion
Allen Guiher	Worley	allen.guiher@worley.com	Actions for Strategies 7 and 8 provide support of industry partners to understand and implement methane emission requirement
Liz Russell	EDF	russell@edf.org	Resources to develop and advance methane regulation. Resources to support policy and funding for transfers and orphans/ abandoned wells in LA.
Jason Meyers	LDEQ	jason.meyers@la.gov	Agency support role
Erin Smith	Tulane University-Energy Institute	esmith11@tulane.edu	Associate Director
Bliss Higgins	LDEQ		Actions 8.1,8.2, 8.3- Rule development, stakeholder engagement, implementation
Garvin Pittman	Fenstermaker and CRCL	garvin@fenstermaker.com	Fenstermaker has much information about locations of pipelines and crews that can find them and/or monitor them
Mark Gebbia	Williams	mark.gebbia@williams.com	Actively deploying project to monitor methane emissions

TRANSPORTATION, DEVELOPMENT, AND THE BUILT ENVIRONMENT

Interest in participation but not active progress			
NAME	ORGANIZATION	CONTACT	ROLE
Mark Zappi	UL	mark.zappi@louisiana.edu	1) we are consumer biofuels 2) share R&D data 3) conferences and tech transfer
Nathan McBride	LMOGA	nathan.mcbride@lmoega.com	This is my personal capacity not LMOGA: I am interested in participating in conversations re transportation #10 and Planning #12
Connie Porter Betts	DOTD	connie.porter@la.gov	Strategy 12.4: DOTD will develop process. Action 11.2: DOTD can implement if legislature appropriates money for program, will start work on program structure.
Fabiola Campoblanco	Self	fabiola.campoblanco@gmail.com	Action 16.6- compost Role: collaborate on planning of compost facilities
Linda Bayham	New Orleans Convention Center		9.2 Installing 2-6 EV Charge station in 2022
Honora Buras	LA4GND, self, retired CPRA	honoraburas@gmail.com	Land use planning to preserve green space and farm, reduce sprawl, protect wetlands
Laura Beauchamp	Entergy Louisiana	lbeauch@entergy.com	working on EV penetration, charging stations and monitoring IJAA Funds
Gary O'NEal, CFM	CH Fenstermaker	general@fenstermaker.com	Grant writer/ Hazard Mitigation
C.Colten	LSU	ccolten@lsu.edu	Ensuring equity in transport and housing
Linda Baynham	New Orleans Convention Center	LBaynham@mccnu.com	Supporter in reducing carbon footprint, #3 LEED certification to document carbon reduction and green building practice, #13.3 appliance pursuing ENERGY STAR appliances.
Liz Russell	EDF	lwrussell@edf.org	#9: Support resources being available for EV charging station network
Brian Bond	AEP SWEPCO	tbbond@aep.com	Environmental Affairs
Eric Kalivoda	DOTD	eric.kalivoda@la.gov	DOTD's research center can facilitate this research to reach LA universities if funding is available
Active progress towards action implementation			
Mark Moses	DOA	mark.moses@la.gov	13.6: Facility Planning and Control is actively working to update energy portion of building standards for energy efficiency. sed modifications to the energy code for state- annual buildings. Actively working with proposed legislation on propo10.3: Staff working to develop a statewide hybrid workplace policy.
Logan Burke	Alliance for Affordable Energy	logan@all4energy.org	Action 12.5: Engaged in Model Solar Ordinance development. Action 13.1: Intervenes Docket setting Efficiency Rules @ LPSC. Supporting Legislation and Implementation of updating building codes
Gina Campo	OCD	gina.campo@la.gov	Insure Climate Action Plan is part of outreach and engagement with regard to LWI and CDBG DR plans, policies, and procedures.
Connie Porter Betts	DOTD	connie.porter@la.gov	Strategy 10.5: providing shore power at public docks within the various public port authorities. Require an increase to port priorities. Strategy 16.5: include alternative fuels as a part of ongoing update to statewide freight mobility plan.
Bren Haase	CPRA	coastal@la.gov	1: Transition fleet to electric vehicles. 2: Encourage flex schedule (telework).
Eric Kalivoda	DOTD	eric.kalivoda@la.gov	Action 9.4: DOTD in lead on developing a great program for alteration fuels infrastructure which could principally benefit freight. Action 11.3: DOTD already working with urban transit agencies on VRT, working on HOU lane, and passenger rail. Passenger rail needs dedicated funding for annual subsidy. Action 9.2: DOTD in lead on EV charging infrastructure deployment.
Fran Harvey	Global Geospatial Inst	fharvey@gginstitute.org	GIS Educate Transp #12 and 13
Karl Weber	Atmos Energy	Karl.weber@atmosenergy.com	Atmos Energy has built ZNE homes in Colorado and Texas. Working on building a model in LA.

Marin Stephens	RPC	mstephens@norpc.org	Working on advising local jurisdictions stuff on federal EV ordinances, codes, grants. Long range planning for regional transportation. Multi- modal regional planning. EV state plan advising.
fabiolacampoblanco@gmail.com	Worley	fabiola.campoblanco@worley.com	#9: Actively engage, executing projects in battery/ electric vehicle industry
Mark Goodson	CSRS	mark.goodson@csrsinc.com	Resilience Practice Lead
Tyler Gray	Placid/ LMOGA	tyler.gray@placidrefining.com	Consumer market, driven response
Rachelle Sanderson	Capital Region Planning Commission	rsanderson@crpcla.org	Development of LWI Region 7 watershed plan (urban sprawl)
Ann Vail	Louisiana Clean Fuels	ann@louisianacleanfuels.org	#10: Can seek out grant funding to assist private sector w/ adoption of technologies and can conduct workshops and provide resources
Terry Chambers	UL	terrence.chambers@louisiana.edu	EV charging station on campus moving toward electric buses
Chao Wang	LSU- Industrial Assessment Center	chaowang@lsu.edu	Provide no-cost technical support to improve efficiency of commercial buildings
Abrina Williams	CH Fenstermaker	abrina@fenstermaker.com	Ongoing work on managing FEMA grants to rebuild housing in Lake Charles post hurricanes Laura and Delta
Resources available to facilitate active progress			
Mann Stephens	RPC	mstephens@norpc.org	Access to federal IJA Funds for MPO for programs and new resilience and emission vehicles for transit and charging infrastructure
Ann Vail	Louisiana Clean Fuels	Ann@louisianacleanfuels.org	#9 Infrastructure planning and deployment. Have contract w/ DOTD to create state EV plan and submit corridor nominations. Have contract w/ DNR to educate fleets. #9: Have contract with DOTD to assist state fleets w/ conservation to alt fuels. Have contracts and grants with US Dept of Energy.
Jeff Schwartz	City of NOLA	jeschwartz@nola.gov	RTA Support, City Planning commission, Finance Authority
Rachelle Sanderson	Capital Region Planning Commision	rsanderson@crpcla.org	Development of long range transportation plan for Capital Region. GCC partnership, development of Resilient Affordable housing vision for decision- makers.
Niki Pace	Louisiana Sea Grant/ LSU	nlpace@lsu.edu	Sea Grant works in green infrastructure, planning, resilience, variety of tools and we continue to work with this area
Mark Zappi	UL	zappi@louisiana.edu	We have numerous active projects and industrial partnerships. Use the LACL Extension Service.
Larry Sorapunu	Concerned Citizens of St. John	Lesora77@yahoo.com	
Stephanie Ferry	Raymond James	Stephanie.ferry@raymondjames.com	Interest in effect on local govt resilience and perceived credit profile effects.
Honora Buras	LA4GND, self, retired CPRA	honoraburas@gmail.com	Land use planning to preserve green space and farm, reduce sprawl, protect wetlands
Mark Moses	DOA	mark.moses@la.gov	13.6: Facility Planning and Control can facilitate discussions w/ stakeholders an energy policies for state owned facilities.
Nathan Lott	Preservation Resource Center	nlott@prcno.org	Policy, Outreach

NATURAL AND WORKING LANDS AND WETLANDS			
NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
Honora Buras	LA4GND, self, (retired CPRA)	honoraburas@gmail.com	restoration and conservation of coastal wetlands. Preservation and expansion of natural land and green spaces. Sustainable forestry and agriculture. Getting away from industrial farming. Soil regeneration. Local farmers and food products.
Nathan McBride	LMOGA	nathan.mcbride@lmoga.com	This is in my own personal capacity. I would be interested in participating in conversations re urban green spaces.
Marin Stephens	RPC	mstephens@norpc.org	actively trying to plan for green infrastructure in stage 0 corridor studies. Brownfields work at RPC!
Liz Russell	EDF	lw Russell@edf.org	#15- support coastal allies in understanding, communicating, and acting on multiple benefits of wetland restoration
Greg Grandy	CPRA	gregory.grandy@la.gov	Would like to see sand and mine reclaiming on the Amite River; USACE AR&T feasibility study has this as an alternative. I will look to follow up with them on initiating this project
Annette Habetz	PCA	annettehabetz@packagingcorp.com	interested in Action 16.6, 16.7
Mark Gebbia	Williams	Mark.gebbia@williams.com	Interested in deploying management practices as a landowner
Eric Kalivoda	DOTD	eric.kalivoda@la.gov	DOTD will review policies and standards to increase the urban tree canopy and landscape based runoff management without compromising roadside safety.
Active progress towards action implementation			
Gary O'Neal	CFM, Fenstermaker	goneal@fenstermaker.com	Grant writer, hazard mitigations, certified floodplain management
Larry Sorapuru	Concerned Citizens of St. John	lesora77@yahoo.com	
Joey Breaux	LDAF- Office of Soil and Water Conservation	joey_b@ldaf.state.la.us	Program deployment oversight
Virginia Burkett	USGS	virginia_burkett@usgs.gov	to bring federal data and expertise on wetland C, Forest C, land management. Actions 14.1, 15.1, 15.2, 16.7
Bren Haase	CPRA	coastal@la.gov	Secure additional funds and expand program to achieve Actions 14 and 15
Marin Stephens	RPC	mstephens@norpc.org	Work as LWI Region 8 co-coordinator. Work on Regional watershed and resilience plans
Camille Stagg	USGS	staggc@usgs.gov	working toward assisting C-sequestration of master plan projects. Actions 15.1 and 15.2. Would like to work on strategies to assess C-seq. potential of NRCS Wetland Reserve Easements. Action 16.1.
Fabiola Campoblanco	Worley	fabiola.campoblanco@worley.com	Strategy's 14-16- provide expertise to plan and execute projects to implement these actions
Brent Newman	Audubon Delta	brent.newman@audubon.org	ongoing in Restore the MS River Delta Coalition. Supporting implementation of Coastal Master plan and funding.
Colette Dean	LA Master Naturalists of Greater Baton Rouge	colette_dean@icloud.com	"City nature challenge", citizen science projects, ecological understanding, population densities, native plant society partnership, "certified" native habitats for homeowners, invasive species/ plants work days, education on invasive species clearings
Alexandra St. Pe	RWE Renewables	alexandra.st.pe@rwe.com	Investigating opportunities to support the restoration and conservation of LA's coastal wetlands
C. Colten	LSU	ccolten@lsu.edu	Basic research, community resilience, coast
Rachelle Sanderson	Capital Region Planning Commission	rsanderson@crpcla.org	Development of LWI Region 7 watershed plan. Development of Benefit-cost analysis framework for LWI projects selection that include issues of equity and natural floodplain function.
Susan Colley	LSU Dept. of Oceanography	stheo1@lsuhsc.edu	Coral biologist, oyster research, El Nino warming, CPRA experience
Doug Daigle	Louisiana Hypoxia Working Group	lmrsbc@gmail.com	collaborate on conservation actions, improve water quality, along with CO2 update
Greg Grandy	CPRA	gregory.grandy@la.gov	Agency actively designing, construction, planning, and monitoring coastal master plan projects
Chief Shirell Parfait-Dardar	Grand Caillou/Dulac Band of Biloxi Chitimacha-Choctaw	shirellparfaitdardar@gmail.com	
Resources available to facilitate active progress			
Niki Pace	Louisiana Sea Grant/ LSU	nlpace@lsu.edu	lot of work in GI, living shorelines, wetland protections.
Doug Daigle	Louisiana Hypoxia working group	lmrsbc@gmail.com	help identify funding for collateral/ reciprocal N&C update benefits
Camille Stagg	USGS	staggc@usgs.gov	grant to assess existing conserved and preserved lands forests and wetlands C-sequestration potential. Action 14.1
Collette Dean	LA Master Naturalists of Greater Baton Rouge	colette_dean@icloud.com	Invasive plant species work days volunteers, education of invasive species, Native plant society partnership, ongoing project "City Nature challenge"

NATURAL AND WORKING LANDS AND WETLANDS

NAME	ORGANIZATION	CONTACT	ROLE
Gary O'Neal	CFM, Fenstermaker	goneal@fenstermaker.com	Grant writer, hazard mitigations, certified floodplain management
Fran Harvey	Global Geospatial Institute	fharvey@gginstitute.org	GIS educator
Honora Buras	LA4GND, self, (retired CPRA)	honoraburas@gmail.com	Extensive experience in conservation planning and implementation (coastal forest conservation) coastal restoration
Stephanie Ferry	Raymond James	stephanie.ferry@raymondjames.com	Interest in resilience efforts and effect on state and local government credit profile, particular in light of recent SEC discussion initiatives that is likely to affect municipal market in next few years
Greg Grandy	CPRA	gregory.grandy@la.gov	Agency submitting through IJA to expand ecosystem restoration projects
Joey Breau	LDAF-OSWC	joey_b@ldaf.state.la.us	Program deployment oversight
Mark Zappi	UL- Lafayette	zappi@louisiana.edu	Share our R&D, Modeling, Tech transfer, collaborators
Gina Campo	OCD	gina.campo@la.gov	LA watershed initiative policies and projects to support nature based solutions
Garvin Pittman	Fenstermaker and CRCL	garvin@fenstermaker.com	Actively engaged in coastal protection and restoration projects
Chief Shirell Parfait-Dardar	Grand Caillou/Dulac Band of Biloxi Chitimacha-Choctaw	shirellparfaitdardar@gmail.com	
Rachelle Sanderson	Capital Region Planning Commission	rsanderson@crpcla.org	GCC partnership, development of resilient affordable housing vision for coal decision makers (preserve and expand natural lands)
Michael Jackson	Bernhard Capital Partners	michael_jackson@bernhardcapital.com	business resource

AN INCLUSIVE, LOW CARBON ECONOMY

NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
C. Colten	LSU	ccolten@lsu.edu	inclusive climate education
Chao Wang	LSU- industrial Assessment Center	chaowang@lsu.edu	Education and Research
Rachelle Sanderson	Capital Region Planning Commission	rsanderson@crpccla.org	Through economic development work, interest in building a more inclusive and resilient economy
Marin Stephens	RPC	mstephens@norpc.org	co-coordinator interested in new LWI educational finding and how to integrate in to planning
Logan Burke	Alliance for Affordable Energy	logan@all4energy.org	Action 17.1 support
Susan Colley	LSU Dept. of Oceanography	stheo1@lsuhsc.edu	public meeting planner/coordinator, resilience population and protection of fishing communities, marine biologist, grant writing, family serviced fisher communities in lower St. Bernard, native New Orleanian
Fabiola Campoblanco	Worley	fabiola.campoblanco@worley.com	Prioritize Louisiana Workers, Strategy 19. Support development of incentives to prioritize LA workers in fabrication, construction, engineering, etc.
Niki Pace	LA Sea Grant/ LSU	nlpace@lsu.edu	Dani Dilulo: head of K-12 education and workforce development may have interest in contributing to this section
Ashok T. Patel	Trinity Consultant	apatel@trinityconsultants.com	
Honora Buras	LA4GND, self (retired CPRA)		workforce training and education in sustainable farming and forest management especially carbon sequestration in soils
Nathan Lott	Preservation Resource Center	nlott@prcno.org	Policy Outreach
Larry Sorapuru	Concerned Citizens of St. John	lesora77@yahoo.com	
Bill Robertson	LPSC	wgrobertson@gmail.com	climate education to focus on LA energy transition
Gina Campo	OCD	gina.campo@la.gov	OCD is involved in ensuring equitable and resilient policies are implemented in disaster recovery programs. The strategies for disasters recovery can be utilized in other areas.
Active progress towards action implementation			
Abrina	Fenstermaker	abrina@fenstermaker.com	Planner, more racial and gender diversity in regional and city planning
Bren Haase	CPRA	coastal@la.gov	adjust contracting and procurement practices to facilitate actions 17, 19
Tyler Gray	Placid/ LMOGA	tyler.gray@placidrefining.com	consumer driven market response
Frances Roberts-Gregory	Foundation for Louisiana	fgroberts@fpoundationforlouisiana.org	narrative work
Marin Stephens	RPC	mstephens@norpc.org	Clean fuel partnership, educates public and fleets on alt fuel technology opportunities
Virginia Burkett	USGS	virginia_burkett@usgs.gov	Action 18.3- identify climate related work and research gap
Ann Vail	Louisiana Clean Fuels	ann@louisianacleanfuels.org	#19 Workforce Development, can work with partners to apply for grants to create jobs/ training for LA workers. Ex: install EV chargers train automobile technicians
Fran Harvey	Global Geospatial Inst.	fh Harvey@gginstitute.org	GIS education, wetland
Jeff Schwartz	City of New Orleans	Jeschwartz@nola.com	Economic workforce development, collaboration, pipelines driven by employers in priority industries
Resources available to facilitate active progress			
Liz Russell	EDF	lw Russell@edf.org	support necessary research and advocacy to expand and diversify economy, abandoned wells and renewables
Mark Zappi	UL- Lafayette	zappi@louisiana.edu	Recruit more students from under represented communities, working with tribes, new education projects
Alexander St. Pe	RWE Renewables	alexandra.st.pe@rwe.com	Investigating opportunities to support LA workers/ businesses transition to low-carbon economy , innovation, inclusivity
Frances Roberts-Gregory	Foundation for Louisiana	fgroberts@fpoundationforlouisiana.org	Resources available
Bliss Higgins	OES, LDEQ		Rule, policy development, stakeholder engagement, implementation

AN INCLUSIVE, LOW CARBON ECONOMY

NAME	ORGANIZATION	CONTACT	ROLE
Bren Haase	CPRA	coastal@la.gov	#18- ensure outreach and education of coastal work includes climate message
Allen Guiher	Worley	allen.guiher@worley.com	Actions 19.1- currently supporting industry partners on energy transition projects. Available technical resources. To aid in industry in understanding implementation of projects from a Louisiana- based firm.
Anthony Bodin	GNO, Inc.	abodin@gnoinc.com	Provide access and resources in advancing economics, equity. Provide access to LCTCS Renewable Energy programs.
Karl Weber	ATMOS Energy	karl.weber@atmosenergy.com	Developed Energy Efficiency program for our natural gas customers
Liz Russell	EDF	lw Russell@edf.org	#19- advance development advocacy and advancement of procurement policies. Normal business operations and workforce development for support LA people.

COLLABORATION AND PARTNERSHIP TO ENSURE SUCCESSFUL IMPLEMENTATION (All Strategies)

NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
Stephen Barnes	Blanco Public Policy Center	barnes@louisiana.edu	Support state agencies with policy/ regulation/ operations. Review to align activities/ laws/ programs with climate action approaches.
Fran Harvey	Global Geospatial Institute	fharvey@gginstitute.org	Carbon Credits
Active progress towards action implementation			
Marin Stephens	RPC	mstephens@norpc.org	Federal metric reporting for safety and project implementation to ensure meets all requirements including title VI. LWI Region 8 co-coordinator, leading regional EV roundtable, helping w/ first ever freight plan w/ resilience and sustainability
Mark Goodson	CSRS	mark.goodson@csrsinc.com	Resilience Practice Lead
Susan Colley	Dept of Oceanography- LSU		population/ cultural resilience local populations, natural resources coral reef biology/ oysters, grant writing, coordinating public meetings
Resources available to facilitate active progress			
Mark Gebbia	Williams	mark.gebbia@williams.com	Corporate climate commitment, identify resources to implement in Louisiana
Bliss Higgins	LDEQ		Rules, policy development, stakeholder engagement, implementation

COLLABORATION AND PARTNERSHIP TO ENSURE SUCCESSFUL IMPLEMENTATION (Federal)

NAME	ORGANIZATION	CONTACT	ROLE
Interest in participation but not active progress			
Alex Kolker	LUMCON		I am interested in evaluating CCUS strategies and actions effectiveness
Larry Sorapuru	Concerned Citizens of St. John Parish	lesora77@yahoo.com	
Honora Buras	LA\$GND, self, (retired CPRA)	honoraburas@gmail.com	extensive cross-disciplinary training in coastal planning, conservation, restoration, sustainable development, goals, traditional ecological knowledge
Active progress towards action implementation			
Ann Vail	Louisiana Clean Fuels	ann@louisianacleanfuels.org	Action #22 and #23: Have contract with DOTD to conduct outreach, feedback sessions and education about IJA and National Electric Vehicles Formula Funds
C. Colten	LSU	ccolten@lsu.edu	Basic Research, community adaptation, and transitions
Niki Pace	LA Sea Grant/ LSU	nlpace@lsu.edu	Sea Grant works/ variety of federal and regional partners
Chief Shirell Parfait-Dardar	Grand Caillou/Dulac Band of Biloxi Chitimacha-Choctaw	shirellparfaitdardar@gmail.com	
Gary O'Neal	Fenstermaker, CFM	goneal@fenstermaker.com	grant writer, hazard mitigation, certified floodplain manager
Gina Campo	OCD	gina.campo@la.gov	utilize climate actions to inform OCD policies in implementation of CDBG funding
Mark Goodson	CSRS	mark.goodson@csrsinc.com	mark.goodson@csrsinc.com
Liz Russell	EDF	lwrussell@edf.org	elevate LA as a national and international leader. Coordinate w/ allies to identify and acquire federal funds for implementation
Rachelle Sanderson	Capital Region Planning Commission	rsanderson@crpcla.org	development of benefit cost analysis framework for LWI projects selection that incorporates issues of equity and natural floodplain function. EPA Resilience Roadmap development. Data center partner work to develop population migration model to benefit CPRA Coastal Master Plan.
Resources available to facilitate active progress			
Nathan McBride	LMOGA	nathan.mcbride@lmoga.com	LMOGA actively advocates and draws collaboration between industry and government stakeholders
Stephen Barnes	Blanco Public Policy Center	barnes@louisiana.edu	support grant writing for IJA or other funding opportunities
Rachelle Sanderson	Capital Region Planning Commission	rsanderson@crpcla.org	GCC partnership development of resilient affordable housing vision for decision makers. Commission and Tech Advisory and Policy committees with local governments
Brad Lambert	Louisiana Economic Development	brad.lambert@la.gov	Always interested in participating with stakeholder to try achieve progress
Joey Breau	LDAF	joey-b@ldaf.state.la.us	Program development oversight
